## COMMUNITY INTERVENTION SERVICE (CIS) EAST STAFFORDSHIRE

---

### Our aims

- Prevent Hospital Admission
- Facilitate Early discharge
- Rehabilitation

### The team

The CIS is a multi-professional team made up of Nurses, Physiotherapists, Occupational Therapists, Social Workers, Discharge liaison nurses and Integrated Support Workers.

### What we can do

- Support patients with Cellulitis/UTI's/Chest infections where IV or oral antibiotics are required
- Monitor/administer prescribed SC fluids
- Monitor exacerbations of COPD and assist with nebulisers
- Assess mobility following a fall
- Support other non-specific presentations where patients have recently become unwell but medically stable within clinical parameters
- Admit to Intermediate care beds
- Provide Occupational Therapy and Physiotherapy
- Provide equipment i.e. frames/commodes etc.
- Blood Transfusions
- Out of Hours Catheterisation/Wound Care
- Out of Hours Palliative Care
- Support patients through a period of rehabilitation
